2018 New Year Message

My Dear Colleagues,

The year 2017 has just drawn to close and was an eventful year, As we have stepped into 2018, I heartily wish you and your family members a very happy, healthy and prosperous New Year.

The year 2017 was remarkable for the Company as we achieved new milestones. Just to rewind a few; on 9th November 2017, we have celebrated Golden Jubilee of the incorporation HCL at Corporate office and as well as at all the Units; Re-opening of Kendadih mines at Ghatsila after gap of 17 years; Banwas mine at KCC was inaugurated; at MCP foundation stone for installation and commissioning of copper ore tailing plant was laid; Significant physical progress has been achieved in the Malanjhand underground mine project. Last but not the least; we have successfully implemented the new pay scale for the executives within four months of Government notifications.

All of these accomplishments have been possible due to your hard work and commitment to take the Company to newer height. I take this opportunity to thank one and all for your support and dedication. I am sure that in coming years you will travel an extra mile to scale to achieve new goals and set new bench mark.

Presently, the LME Copper prices are going strong. But we are well aware of its unpredictabilities. Lest we are caught unaware when the downturn comes in the global market prices, the Company has to demonstrate more agility in current and long term business strategy.

To equip ourselves better, we welcome all to come forward with suggestions, innovations for improvement of systems, procedure, process etc., particularly in the areas focused on reducing cost of production, reducing wastages, maximizing revenue and generating fund.

Together we have braved many a headwind together to reach the 50th year of our presence. It is inherent in nature of our Copper fraternity to stand up collectively, to fight the odds together and to convert crisis into opportunity. As a team we must work together to build HCL which is stronger and rewarding to all its stakeholders in years to come.

Let us together look forward to a rewarding and prosperous New Year that will see us accomplish all of our missions. On this occasion, my family joins me in offering best wishes to you and your families for their unstinted support. May 2018 bring us all good times and happiness.

(Santosh Sharma)
